NOW LOOKING TO AMERICA.

Wires at Work Which May Make the Island Free, With the United States Holding a Protectorate to Guarantee the Debt.

WASHINGTON, Jan. 13.-Private information has been sent to the State Depart-ment and to members of the Foreign Affairs Committee in Congress going to show that powerful influences are at work to se-cure independence for Cuba. Spain has is-sued bonds to the gross amount of about \$400,000,000, based specifically upon the resources and revenues of Cuba. These bonds are held in large part in Great Britain and

Some of the largest syndicates in these countries, it is said, have at last become convinced that these bonds are about to be-come valueless unless the United States in some way guarantees their payment. They are convinced that the !sland is entirely devastated and that it can be restored only by the influence of a strong commercial

Representations have already been made to this country by certain strong commercial interests to secure active intervention. If this were done the United States would become morally responsible for the payment of the Cuban loan. This could be done by a protectorate similar to that of England in Egypt or by a direct control of the Cuban custom house. The insurgent leaders have all along intimated that they would not object to action on the part of the United States which would secure their indepen-dence, no matter how costly it might be to them from a financial point of view. They realize that the very measures necessary to the raising of money to pay this loan would give the island a start commercially such as it could not hope to attain by itself.

Under present conditions President Mc-Kinley could not intervene except as an act of hostility to Spa'n, for the Spaniards have acceded to every demand made by this Government almost before it was presented. It has been intimated, however, that if the United States should send its warships to Havana, stop the war and agree to pay the \$400,000,000 of the Cuban loan, both France and Great Britain would sustain this country, and, therefore, the Sagasta Government could appeal to the people of Spain and show that the loss of Cuba had come being made a good highwayman. about by the influence of France and Great

THE RIGHT WRIST AND KILLED HIM.

HIS STORY PROVED TRUE.

Graham Was Formerly a Policeman and Officials Think He Would Be a Credit to the Force -Arrests Made.

The slaying of Joe McDonald, known as "Foxey," a footpad, was the first triumph of the peaceable citizen over the bandit in St. Louis since October, 1894, when Grocer Sullivan of North Broadway routed three men who tried to hold him up, and wounded and captured one of them. The police are highly gratified, and there is a strong sentiment that George Graham would be an orna-ment to the force,

Dan Murphy claims that he was at Ed Toomey's wake when McDonald tried to holdup Graham and was killed. The police believe, and Graham agrees with them, that Murphy is one of the two

and arm and drew my revolver with my right. I fired twice as rapidly as I could I think the first bullet killed him, for I felt him falling toward me just as I pulled the trigger the second time. The muzzle of my pistol was almost against his body.

"As he fell I jumped back and looked to see what the other two men would do. They were walking rapidly away.

"Several men got off of a Cass avenue car, and in a few seconds the dead man and I were surrounded by quite a crowd. Three policemen came, and I told them what had happened. They examined the dead man and found his revolver clutched in his right hand. I was brought here and locked up. That is all there is to it. I am sorry to be in trouble, because the loss of a little time means much to a man who has to work for his living, but I think I did right. If I had not killed the man he would have killed me, and I don't want my wife to be widowed and my children orphaned.

"I have always carried a pistol while

On its substance he has fattened, As such Worms are wont to do, And he's steered straight for the center,

To his purpose ever true—
To absorb it more and more
Till he's taken in the core—
And he cares not that the apple now is

Now if we should get an apple That was in such woeful state, When we found that it was rotten, Not a moment would we wait, But we'd cast it in the street,

To be crushed by passers' feet, And we'd gladly watch 'em smash it an its worm annihilate.

"Foxy" McDonald was shot twice. One builet went through his heart and the other through his left arm. He was probably falling when the second shot was fired. He was the antipodes of Graham, morally and intellectually. Born in Kerry in the was one of McDonald's companions. Murphy has been arrested many times for crimes ranging from petit larceny to assault to murder. He and McDonald were birds of a feather.

Frank Munsell, alias "Butch," is suspected by the police to have been with McDonald and Murphy.

Coroner Wait will hold the inquest on McDonald Filday. When the dead man's clothing was examined at the Morgue several pieces of wienerwurst were found in the pocket. Another piece was found in his left hand. This may throw a different light on the tragedy. The Four Courts officials think possibly McDonald had snatched some of Graham's wares and drew his revolver when payment was demanded.

McDonald had on no socks and his toos protruded through the holes in his shoes.

Chief Desmond said of the tragedy: "If the report of the officers is correct, Graham has done a better piece of work than the police have done in a long time. He deserves the thanks of every citizen and should get a medal. That killing will do much to put an end to lawless acts."

Thirty-eight Bodies Taken Out of the Wrecked Buildings.

OVER ONE HUNDRED INJURED.

THE LOSS TO PROPERTY ESTI-MATED AT ABOUT HALF A MILLION DOLLARS.

BUSINESS SECTION CRIPPLED.

List of the Merchants and Others Who Suffered and the Approximate Loss on Stock and Buildings.

FORT SMITH, Ark., Jan. 13.-Thirty-eight wrecked buildings, and almost 100 persons are suffering from severe injuries. The property loss is estimated at about \$500,000. This is the extent of the great calamity caused by the tornado of Tuesday night. It is thought all the persons in the storm-wrecked buildings have been accounted for.

The citizens' relief committee has \$10,000 in hand for assisting sufferers. President Robinson of the 'Frisco road, unsolicited, sent his check for \$1000. The Missouri Pacific Railroad also contributed \$1000.

Business is practically abandoned all over the city and men of all classes are assist

ing in clearing the debris.

The storm struck the city near the National Cemetery and swept its way through the heart of town. Leaving Fort Smith it bounded by Van Buren and continued down the river, demolishing everything it touched.

FATH OF THE STORM.

The first obstruction in its active the first obstruction in its active. The first obstruction in its active was the National Cemetery, one of the most beautiful in the South. The high brick wall surrounding this was swept away as easily as an egg shell might have been. The residence near the center of the cemetery, occupied for many years by Mr. R. C. Bulgin, a Federal soldier, who had charge of the grounds, went down, a mass of broken rock and timbers. The Wellington Hotel also fell before the-fury of the blast. Out on the Reserve, directly in the path of the tornado, lay a large cotton yard, where thousands of bales had around many of the bales were hurled to every direction. The strong iron bands around many of the bales were snapped as easily as though they were cotton triber corners of the carth. Every residence in that section was razed to the ground many of the inhabitants receiving severe injuries. Directly in the path of the storm was the upper end of Garrison avenue. The first building struck was at the corner of Ninth, a big two-story stone structure, occupied by I. Isaacson with a stock of general merchandise. Not one stone was left upon another. From here out to the Catholic Church, which stands at the end of the avenue in the center of the street, not a building remains except as a wreck. In this section and out Towson avenue was where so many fatalties code stored stores of many of the buildings were occupied by tenants, and these went down to almost instant death under the mass of debris and wreckage. From some of these buildings no less than twelve dead bodies were taken.

Out Eleventh, Twelfth, Thirteenth and Fourteenth streets a path of destruction was cut through the most chickly populated portion of the city. From the High Score and on the store was cut through the most chickly populated portion of the city.

RAGED FIFTEEN MINUTES.

Miss Lillie B. Mivelez of Little Rock, who was stopping at Hotel Main, describes the storm:

"There was an awful roaring sound," said Miss Mivelez, "during the fifteen or twenty minutes the storm raged. The wind blew fearfully and the hall fell furiously. I had retired, but was awakened during the storm, and I at once realized it was a tornado, having a lively recollection of the storm, and I at once realized it was a tornado, having a lively recollection of the toth. The evening had been unusuably minutes the storm that the deviated district, making one of the most welfelly beautiful spectacles imaginable. It is simply impossible to describe the pictude. From Ninth street to the Texas road houses were demolished on ord the street. The brick house of my aunt, Mrs. Maru Mivelez, was blown off, and the fine new High School was badly damaged. The damage was great on Twelfth street and Catholic avenue.

# ABOUT VAN BUREN.

that gescended upon Fort Smith last night crossed the Arkansas River one-half mile south of here, and tore a path 200 yards wide through Crawford County. The first house it struck was that of William Hines, occupied by a colored family, who left the house just as it left its foundation. The house was demolished, but the occupants escaped. The next house in line was Frank Boatright's. It was a large two-story house, and nothing remains of it but the floor. Boatright's son and daughter were badly injured.

The houses of Waiter Haley and Mrs. Keller were on an adjoining farm, and were blown entirely away, not a vestige of them being left. The families of both were injured. James Shipley's store and dwelling were blown down, but none of the occupants were injured. Charles Wright was blown from his house and fatally injured.

Edward Blakemore was instantly killed by his house blowing down on him. The house of Mrs. Bash was demolished and she was crushed and two of her children, aged 14 and 16 years were injured.

It is estimated that about 100 head of cattle and horses were in the path of the tornado and were killed. It is five miles on a direct line from Van Buren to Fort Smith, and debris from there was strewn over the ground three miles beyond here. A mass meeting is being held here to-night to relieve the destitute.

cal at this time.

The committee of twelve listened patiently and respectfully for several hours and then quietly voted them down. The report was outlined and referred to a sub-committee to be properly written out.

When the conference met at 10 o'clock Thursday morning the delegates said the report would be received at once. But it wasn't. An hour passed, in which the conferees mapped out plans of organization and talked politics, while the committee of twelve watched furtively for the return of their sub-committee of three.

It was hearly noon when the sub-committee filed into the committee room and sent word that the report was ready for consideration by the whole committee. Reading of the report at once began, but in a few seconds it was seen that the clever hand of Mr. Washburn was discernible in the reference of certain matters to the wisdom of the national committee. The committee of twelve had already voted that the national committee had no wisdom, and should hereafter be ignored, so the majority fell upon that report, and showered amendments on it until Mr. Wastburn did not recognize it. The battle had all to be fought over again.

Jones, who has a shop in the rear of the store of Gus Sporlader, 422 Morgan street. Bremser says that Gus Bporlader, Jr., came over every day she worked there to meet her, take her to lunch, and arrange future meetings. He did not like it and Mrs. Bremser liked it still less. Tuesday evening at 7 o'clock Mrs. Bremser showed her disapproval by striking Mrs. Champlin with some hard substance and cutting a gash over her right eye. Young Sporlader was present and accompanied the woman to the office of Dr. Garlock, 910 North Broadway. Dr. Garlock sweed up the wound. The woman save her name as Mrs. Louisa Chamberlain.

## GEN. LEE'S REPORTS.

Startling Statements as to the Immi-

nence of Starvation. WASHINGTON, Jan. 13.-United States Consul General Lee has reported to the State Department from Havana, under date History in the Columbian University here, of yesterday, the facts connected with the rioting there yesterday. While the State Lome's son, has just returned from Cuba. Department officials do not divulge the text of the dispatch, it is said that it corrobo-rates generally the newspaper reports on the subject. According to Gen. Lee's re-port the disturbance had been quelled for the time being, but he was apprehensive of another outbreak at any moment. Nothing Many Outrages Perpetrated.

HAYNA, Jan. 18.—The failure of eight of the was apprehensive the first of the control of the contr

cussion of Gen. Garriche, acting military commander at Havana, and Senor Solano, chief of staff, prevented more serious out rages.

These officers then proceeded to the office of El Diaro de la Marina, the mob shouting mednybile, "Death to El Reconcentrado," and "Death to El Reconcentrado," and "Death to La Discussion." But on the appearance of Gen. Parrado the people scattered.

At 11:30 large crowds of citizens appeared opposite the office of El Diario de la Marina and began smashing the windows and doors and shouting "Long live Spain!" "Long live the rolets.

Order was finally established. Central Park has been transformed into a military camp. There has been great excitement among the authorities, who have taken all necessary precautions to maintain order. The troops have been ordered to barracks. Gen. Solano will deal most severely and energetically with the initiators of the outbreak.

At 3:30 yesterday afternoon groups of civilians formed in the Plaza de Armas in front of the palace, shouting "Long live Weyler!" and "Down with autonomy!" The cavalry came up, charged the groups and dispersed them. The regular infantry the cavalry then held the avenues around the palace. CALLS FOR INTERVENTION.

How Cubans in This Country Regard the Riots in Havana. NEW YORK, Jan. 18.-The rioting in Havana and the wrecking of several liberal newspaper offices by army officers and connewspaper offices by army officers and con-servatives opposed to the plan of autonomy, excites more satisfaction than surprise among sympathizers with the cause of Cuba in this city. The opinion is general that the time has arrived for the United States to intervene. Gen. Tomas Estrada Palma, head of the Cuban junta here, said to-day: to-day:

"The rioting in Havana is the direct result of the attempt to give autonomy, so-called to the island. The Spaniards in Cuba will not have it at any cost if they can help it. You must know that every Spaniard regards a Cuban as an enemy of Spain. Even those who have been appointed to office under the plan autonomy are distrusted by the Span present attacks on

the beginning. If they are not successfully interrupted the result will be massacre and assassination in Havana. I think the time has come for the American Government to intervene. This is the only way to stop the constant rouble and outbreaks on the island. Gen. Blanco, it must be remembered, has very little interest in the army. He is without popularity or influence. The officers and volunteers almost to a man believe that the policy pursued by Weyler is the only practicable policy. Americans cannot conceive of the deepseated hatred with which the Spaniards regard the Cubane, who have humiliated them before the ees of the world. On the journey to Clayton Harry is said to have weakened and to have mede a partial confession to Inspector Nichols.

Thursday he had repented of this and to Sheriff Kerth he denied all knowledge of the attempt to derall the train.

The Sheriff took the precaution to separate the prisoners, and while Harry maintains his innocence on the lower floor of the jail, George from his cell upstairs, with no reluctance, gives the officers much valuable information.

Thursday afternoon Sheriff Gerth will confront Harry McPeek with his cousin's

Both men are but 20 years old and are unknown to the authorities.

The report of the Wabash detectives on the matter was made to Fuel Agent Burns in the general offices in the Century Building, at 11 o'clock Thursday morning. The confession of George McPeek to a Post-Dispatch reporter is fully corroborated, and a further statement is made of Harry McPeek's admission of guilt. The detectives say the motive could have been nothing but robbery, as the men were never in the company's employ and could not have been inspired by revenge.

Warrants have been issued charging both with attempted train wrecking. They will be given a hearing before Justice J. B. Greensfelder at Clayton on Jan. 20.

Five minutes after the tornado struck Fort Smith that beautiful, thriving city was changed into a scene of devastation, desolation and press any investigation of bribery charges. It human beings were swept away and crushed Hanna's Senatorship will be told before an inas a house of cards is demolished by a blow.

The tornado is a swift and terrible agent of death. It comes with little warning and with irresistible power. In its hands men are helpless atoms and their works are trifling toys. They are the sport of uncontrollable and invisible forces that gather and strike and vanish.

The terror of the storm is a phrase thoroughly appreciated by those who have experienced the norrors of a tornado. St. Louis sympathizes with Fort Smith. The

It is a work of supererogation to direct the word is excellent in this connection-of the city's streets. Their "impassability" forces itself upon the attention of all who use them.

But the impossibility of getting cleaner streets is as conspicuous as the impassability of the

The Street Commissioner has gone abroad to find better streets to look at, and the Mayor and other city authorities are too busy running the political machine or attending to other profitable matters to bother about the streets.

Besides, it costs money to build and clean streets and all the money in the city treasury is needed for new salaries and increases of old salaries so that the political workers may ride

The people must crush the trusts or the trusts will crush the people. It is all very simple,

# STRENGTHEN BUILDINGS.

In view of the great destruction that has been wrought in the last few years by tornadoes and cyclones, it is the manifest duty of owners of dwellings and other buildings in the Central and Southern States to strengthen them in every possible way.

This is not being done. No lesson has been learned from past cyclones is this regard. After the great St. Louis cyclone many buildings were put up hurriedly, in the same light fashion

In the interest of public safety, the thickness of walls of dwelling houses ought to be increased. Wherever possible, buttresses ought to be added to walls and roofs should be strengthened and well anchored down.

It would be a good idea to have at least one room in the ground floor or basement of every dwelling and office building cyclone proof. Possibly no mass of brick or stone could withstand the full force of a tornado, but the chances of safety would be greatly increased by strong buildings.

The great increase of St. Louis school children is an evidence of the city's rapid growing powers even without immigration. ----

## IS THE RACE DOOMED?

As told in Wednesday's Post-Dispatch, Prof. Schenck has proved, according to his own story, that sex is but a matter of richness of blood erfection of digestion. Woman has a miless red blood corpuscles than man, and to n. ke the number even she must eat well and digest more perfectly.

If this is so, woman is doomed. Science will eliminate her from the human race.

We live in the age of pepsin tablets. pepsin tablets is woman's worst enemy. As soon as every woman gets to taking pepsin tablets with as much facility as men chew tobacco or schoolgirls chew gum, woman's digestion will ome so perfect and her blood so rich that the extra million blood corpuscles will be acquired. Then none but boy babies will be born.

It is manifestly woman's duty to avoid this state of things by refusing to perfect her digestion and enrich her blood. When girl bables are eliminated where shall we get the boy babies? What will become of the race?

Spain's autonomy and McKinley's reciprocity came near to being born twins.

### ----SPANKED.

Of 62,760 pupils in the St. Louis public schools last quarter, 491 were spanked by the principals. This is less than one per cent of the total number of pupils. Divided among the 124 school buildings, it is less than four pupils to each school. No less than 62,269 pupils behaved so well that they got no spanking.

It St. Louis school children are not the best behaved in the country, they are certainly as well behaved as the school children in any great

### \*\*\* A BENEFICENT STROKE.

It was to be expected that the investigation of charges of bribery in the Ohio Legislature would be defeated.

But there is the grand jury. Neither United States Senators nor members of a Legislature are beyond the reach of a grand jury. The charges of bribery in the contest should be taken before the grand jury.

The indictment and conviction of a Senatorial briber would be a beneficent stroke of justice.

Perhaps Quincy people object to paying back taxes to the State of Illinois because every back in Quincy is taxed by the tariff.

### AN AMUSING PROPHET.

The Reverend Irl R. Hicks is "an amoosin' cuss." Not only has he made an occupation of the silly sport of making weather predictions, but he actually expects the public to take his weather guesses seriously,

But descent is easy. It is not surprising to find a man who has slid down the long incline from the Bible to the almanac, from pulpiting to weather prophecy, trying to reconcile a dec laration that tornadoes come in the daytime attention of anyone to the "impassability"-the with a midnight storm and a prediction of a cold wave with an unusually warm spell,

"Angels," exclaimed the Prophet of Improba-bilities in his desperation, "could not have predicted the abnormal condition of weather." But "fools rush in where angels fear to

In Senator Hanna's speech to the Glee Club at Columbus there are almost as many I's as there are dollars in his bar'l. Mr. Hanna is not quite happy in his affected role of Modestus.

We want good times and more years of continuous prosperity. In the West there is no better way to insure these blessings than the thorough improvement of the Mississippi.

Newspaper readers would not be exceedingly indignant if some good Indian would scalp the author of every fake Indian story that comes from the West.

Eternity will have to be drawn upon if any trust is to "grow a soul." While the trust is on earth, it will continue to want the earth.

----Mr. Hanna's assurance that "God reigns" will not lead any one to believe in the divinity of the Hanna machine.

The feeling among the Populists against fusion seems to be quite as strong as that of Gov.

Motormen hit the crossings much more accurately n dry weather than in wet. Doubtless the sight of the mud makes them nervous,

The mud funketers are not to return for twenty lays. It would be as well for this over-burdened

### CUT HIS OWN THROAT. Roy Moss Brooded Over the Murder of a Relative.

KANSAS CITY, Mo., Jan. 13 .- Roy Moss, an uncle of Russell Lindsay, who was re-cently killed by William Deltz, committed cently killed by William Deitz, committed suicide in Kansas City, Kan., yesterday morning by cutting his throat with a razor. Since the dath of his nephew he has been broading over the event. He was found in a pasture near the Kansas River with his throat cut from ear to ear. A broody razor lay by his side. His shepherd dog, which was his particular pet, stood watch over the body, and for some time would not allow any one to approach it. The body is now at the home of the deceased's brother.

# MISSIONARIES PROTECTED.

Chinese Are Vigilant Since the Kiao-Chou Affafir.

VANCOUVER, B. C., Jan. 13 .- The following news comes by the Empress of China: Since the establishment of Germany at Kiao-Chau dame rumor has been very bus in Hong Kong, but at the time the Empress left all residents there were agreed that the British garrisons at Singapore and Hong Kong must be immediately increased. In consequence of the Klao-Chau affair extra precautions are being taken, according to the native papers, to protect missionaries and their property. The churches in many places are being guarded by Chinese

The priests arrested by Chinese authorities in connection with the alleged fraudulent sale to Russia of land in the Kiu Kiank Mountains have died as a result of tortures. Three more are in prison, and unless speedily helped, will meet with a similar fate. A native telegram received from Peking reports that Viceroy Chan Chin Tung has energetically protested to the throne against the granting of the German demands and he especially protests against the dismissal of ex-Gov. Li Ping Heng, whom he declares to have been in no wise to blame in the matter of the recent murder of German priests. He fears that if Li Ping Heng be dismissed the other Viceroys and Governors will resent the injustice done to their colleagues. The Viceroy further declares that the people are loyal to the throne and only need men to lead them.

Justice done to their colleagues. The Viceroy further declares that the people are loyal to the throne and only need men to lead them.

His excellency offers himself as one of several high officials of the Empire who will be willing to lay down their lives if necessary for the dynasty. The report goes on to say that the Emperor dropped some tears upon reading Viceroy Chang's memorial and looked questioningly at the members of the Grand Council around him, hoping for some one to indorse Viceroy Chang's words, but no one opened his mouth, while every eye was bent to the ground as if afraid to catch the Sovereign's gaze.

RETURNED TO LIFE. Suspended Animation Caused by

Blow on the Head. TOLEDO, O., Jan. 13 .- Mrs. John Graper who, with her family, resides about one mil from the East Side, died, or was suppose to have died, last Friday morning, but th to have died, last Friday morning, but the late developments prove that it was a case of suspended animation, brought about by a blow on the head, dealt by her husband. All arrangements had been made for the funeral, when the woman showed unmistakable signs of life. On Friday morning John Graper and his wife quarreled, and he struck her on the head with a club. The woman became unconscious, and it was thought she had died. She was prepared for burial. Saturday afternoon about 2 o'clock signs of life appeared and the supposed corpse arose in her coffin. She s now on her way to complete recovery.

# Photographers Praise the Post-Dispatch Photographs.

Leaders in Their Art on the Greatest Advance in News paper Illustration

THE poster photograph which occupied the first page of the Woman's World section in the last Sunday, Post-Dispatch was indeed an artistic marvel when the difficulties of rapid presswork are considered. It exhibits a remarkable advance in color newspaper illustration and shows what an important factor photography is becoming in producing attractive features for newspapers. Your enterprise deserves commendation and I believe you will

reap the success such efforts justly merit. J. C. STRAUSS.

Editor of the Post-Dispatch. HE poster photograph in last Sunday's Post-Dispatch was wonderfully fine work. As a photographer I can find points to criticise, but considering the conditions under which the work is done and the time in which it is done. I repeat it is wonderfully fine work. I do not like the yellow background of this week's picture, but perhaps it has symbolic significance. The left shoulder is made too prominent, but since the work is a direct reproduction from a photograph that is

the fault of the positionist, A man who perfectly understands the chemistry of photography and is at the process by which this work is done should be as perfect results as in photography. The flesh int in this picture is particularly well shown. The hazy effect is almost more pleasing than in a photograph. WM. M. BELL,

Manager for F. W. Guerin, Editor of the Post-Dispatch. THE color work in the Woman's World sec-

tion of the Sunday Post-Dispatch is wonderful. I have been watching these pictures. It is a mystery to me how it is done on news paper presses. I cannot understand it. If I une stood the process perhaps my wonder and appreciation would be greater and I could express a more sat-

efactory opinion. I see some defects, but they seem to be due as much as anything to lack of care. This is particularly true of the left outline of the figure on the first page of last Sunday's paper, which is sharp and hard, apparently for no other reason than that due care was not exercised. All things considered, though, every detail is very fine and it is a marvel to me how the Post-Dispatch can do it. J. E. ROSCH.

Editor of the Post-Dispatch. THE truth was expressed in the editorial announcement in last Friday evening's Post-Dispatch. As was there promised the first page of Sunday's Woman's World was the most beautiful and striking piece of art ever attempted or executed by a

St. Louis newspaper. A. S. ROBERTSON, President of the Photographers' State Association.

# TURNS COAL

C. W. Smith of Moline, Makes Anthracite of Bituminous.

ST. LOUIS MAY BE A KLONDIKE.

THERE'S A HUNDRED PER CENT PROFIT IN EVERY TON OF THE NEW FUEL,

PEORIA BIDS FOR THE PLANT.

St. Louis High Commercial Standing and Its Better Distributing Facilities Will Probably Have Strong Bearing on Site Selection.

C. W. Smith of Moline. Ill., who is regispurpose of establishing a plant which will completely transform and revolutionize the inthracite coal industry. Mr. Smith has nvented a process by which the common coal can be converted into anthracite and sold almost as cheaply as the

moves all the gas and oil from the ordinary oal, reducing it to 13-20ths anthracite aking a fuel much more valuable than of the coals sold directly from the

mines.

The only question remaining with Mr. Smith is the location for his plant. The people of Peoria, Ill., have made a proposition for its establishment in that city, where soft coal is abundant. But capitalists in St. Louis, who have watched the development of flie new process, have offered encouraging inducements for the location of the plant in this city, where shipping facilities are much more advantageous.

Mr. Smith has had several conferences with those interested, but will return to Moline before determining what course to pursue.

who the before determining what course to pursue.

What he most desires is a location that will give him an abnudance of soft coal and equal facilities for shipment. The advantage claimed by Peoria is the immediate presence of great coal mines, among which the plant could be established, with inexhaustible material at hand. On the side of the coal, and the greatest facilities for shipping, besides the prestige of a great municipality.

ping, besides the prestige of a great municipality.

"There is no question whatever," says Mr. Smith, "about the success of the invention. That was settled ence and for all before any movement was made looking to the establishment of the plant."

When the new industry gets into working order it is expected by its promoters that a revolution in fuel will follow quickly. The high price of anthracite would naturally drive factories, foundries and homes into an investigation of any fuel that is cheaper, no matter whether its claims of superiority were realized.

A coal burning, even equally well with anthracite, at a reduction of \$2 or \$3 a ton, would drive the hard coal market into extendities. The present price of anthracite is \$7 a ton, which varies little during the year, and bituminous sells at \$3 to \$5.50. Given a coal selling between the two, with the good qualities of the one and none of the bad qualities of the other, and you have what Mr. Smith thinks is the gold mine now in his possession.

Incidentally it would solve the smoke problem, and make \$1. Louis cleaned the weeter the plant is jocated in \$1. Louis

problem, and make St. Louis It is.
Whether the plant is located in St. Louis or Peorla the new coal is expected to be upon the market by next fall,

## DUCTORS AS WITNESSES.

They Detail the Manner of Hastings' Death at Draper's Hands.

JACKSONVILLE, Ill., Jan. 13.—The Dra-per trial was more interesting to-day, as the doctors who examined the body after death were on the stand. Dr. W. K. Mc-Laughlin told with detail how the murdered man met his end. He explained the condition of the body and described the many gaping wounds inflicted. No doubt Hasting's wrists were first cut and then the struggle began, the murderer hacking away on the left side of the body until his victim was weak with the middle of the body until his victim. of the left side of the body until his victim was weak with the loss of blood and unable to defead himself, and then the cruel knife was drawn acroes the left side of the neck, probably many times, until a vital spot was reached. It appeared that it took several cuts to reach the jugular vein and carpited artery.

Gov. Johnson conducted a searching cross-examination. Dr. H. H. Carter was present at the post mortem and admitted that probably only one cut was fatal, and that the one which severed the jugular vein.

# SPRING ELECTION.

COMMISSIONER SAUNDERS BE-LIEVES ONE WILL BE OR-DERED BY THE MAYOR

FOR PUBLIC IMPROVEMENTS.

Question Will Come Before the People in the Form of Amendments to the Charter.

Ten clerks are working overtime in the Election Commissioners' offices at the new

popular proposition, defeated in the Suppreme Court after enactment by the Legislature.

Against that proposal the Mayor makes another as an offset. Under existing law the contractor's bill for improvement is a lien upon property, which must be paid in 90 days. It is a hardship which 50 per cent of the property-owners cannot stand and which greatly retards the buying of homes by men of moderate and small means. The Mayor proposes that this shall be changed so that bills for improvements may be paid the contractor in bonds, the city giving the property-owners a period of years to meet the cost of improving their property on the time-payment plan.

These are the amendments which Mayor Ziegenhen proposes shall be submitted to the people in April or May next.

When the Board of Public Improvements paid their respects to the Mayor, on New Year's Day, His Honor toid them he wanted them to move quickly in the matter of preparing these amendments to the charter. It is well understood the chief purpose of the Junket of Assemblymen to Eastern cities is that on their return they may give a glowing description of what has been accomplished in smaller cities in the way of public improvements, and thus arouse the St. Louis people to a sense of the necessity of immediate and intelligent action. The amendments proposed by the Charter Amendment Commission have already fallen by the wayside as being too radical, since they undertook to overthrow the tenure of offices and the time of making appointments.

Now Mayor Ziegenhein has the subject in hand and there is a rumor that the Mayor

are of offices and the time of making appointments.

Now Mayor Ziegenhein has the subject in and and there is a rumor that the Mayor as dropped a hint to the Board of Election Commissioners to be prepared for a special election this spring upon the two imendments to the charter, which he will ave submitted to the people through the 30ard of Public Improvements and the Mulicipal Assembly.

The Commissioners have certainly imfeed the idea that the Mayor is in position o make good his policy, and hence the activity in the board in moving to meet an expected demand upon them.

## ILLINOIS DAIRYMEN.

The Second Day's Convention Was Great Success.

RED BUD. Ill., Jan. 13.-The second day of the Illinois Dairymen's Convention was well attended. M. K. Lyons of Marissa, Ill.,

well attended. M. K. Lyons of Marissa, Ill., addressed the audience on "Does Dairy Farming Pay in Southern Illnois?" and was followed by Charles F. Millier of Sparta, Ill., on "Creamery Butter Making."

The afterneon session opened with an address by Mrs. Mary Mayo of Battle Creek, Mich., on "How to Keep Boys and Girls on the Farm." She was followed by Prof. W. J. Frazier of Urbana, Ill., on "Variation in Milk." He made several experiments with the Babcock test.

The chairman then appointed a Committee on Nomination of Officers for next year: Chairman, R. G. Wolford of Red Bud, Ill.; John Stuart of Eiburn, Ill., and H. H. Hopkins of Hinckley, Ill. On Resolutions—Chairman, A. G. Judd of Dixon, Ill.: L. A. Spies of St. Jacob's, Ill., and R. G. Spler of Edelscine, Ill. Prof. L. J. B. Weems of Ames, Ilo., addressed the audience on "Acids Used in Coloring," and was followed by A. G. Judd of Dixon, Ill., on "How to Make Butter at a Cost of 8 Cents per Pound." Flemming of Alden, Ill., took the sweepstakes by scoring \$7\(\frac{1}{2}\) points on butter. A number of medals and prizes will be awarded.

ITCHING PILES AND OTHER RECTAL TROUBLES EASILY CURED BY A NEW AND SAFE METHOD.

Remarkable Number of Cures Made by the Pyramid Pile Cure.

About one person in every four suffers from some form of rectal disease. The most common and annoying is itching piles, indicated by warmth, slight moisture and intense, uncontrollable itching in the parts affected.

The usual treatment has been some simple ointment or salve which sometimes give temporary relief, but nothing like a permanent cure can be expected from such superficial treatment.

The only permanent cure for itching The only permanent cure for itching piles yet discovered is the Pyramid Pile Cure, not only for itching piles, but for every other form of piles, blind, bleeding or protruding. The first application gives instant relief and the continued use for

posed that the remarkable relief afforded by the Pyramid Pile Cure was because it was supposed to contain cocaine, opium or similar drugs, but such is not the case. A recent careful analysis of the remedy showed it to be absolutely free from any cocaine, opium, or in fact any poisonous, injurious drugs whatever.

injurious drugs whatever.

For this reason the Pyramid Pile Cure is probably the only pile cure extensively recommended by physicians, because it is so safe, so prompt in the relief afforded and so far as known the only positive cure for piles except a surgical operation.

In one year the Pyramid Pile Cure has become the best known, the safest and

become the best known, the satest and the most extensively sold of any pile cure before the public.

Nearly all druggists now sell it at 50 cents and \$1 per package.

Address the Pyramid Co., Marshall, Mich., for book on cause and cure of piles and also hundreds of testimonials from all parts of the United States.

If suffering from any form of piles ask your druggist for a package of Pyramid Pile Cure and try it to-night. WHY WOMEN LOOK OLD.

Some Women Look Fresh and Young at Fifty.

Others Appear Old and Dragged Out at Twenty-Five.

Did It Ever Strike You That There Must Be Reason for This?

"How old I look!" is what women say to their mirror.

The passing years are not what make City Hall. They are preparing the primary the average woman grow old in looks, but the condition of nerve weakness, poor blood and low vitality. dered upon proposed amendments to the Scheme and Charter. If our anticipations are realized, we shall be ready. If they are not, no harm can result from our preparations."

The conditions which the board considers a warranty for their haste are these: Mayor Ziegenhein has determined to characterize his administration by a policy of public improvements that will place the city in the front rank of great municipalities.

There stands in history the charter limit of 25 per cent, which has heretofore folied every effort to secure the improvements absolutely demanded. He has made up his mind the limit must be removed of the limit has heretofore been a decidedly unpopular proposition, defeated in the Supermen Court after enactment by the Legislature.

Against that proposal the Mayor makes N. J. She says:

"I feel it my duty to testify to the mer its of Dr. Greene's Nervura blood and nerve remedy. Eight years ago I was nerve remedy. Eight years ago I was taken very sick with pains in my back and lower limbs. I was unable to stand or to be about at all, and had to take to my bed. The doctors said I had womb troubles, and I kept changing doctors all the time, but got no relief. One day when I was going to call in a new doctor, a friend called and asked me if I had evertried Dr. Greene's Nervura. She pertried Dr. Greene's Nervura. She persuaded me to buy a bottle; so I bought a bottle and after a few doses I could feel a change. By the time the first bottle was used up I felt much stronger and my pains didn't seem quite so intense. After a time I could walk a mile and very seldom lie down in the daytime. As I grew stronger the pains gradually left me. I sincerely recommend Dr. Greene's Nervura in all cases where a general tonic i needed, and as a blood purifier." All women should take Dr. Greene's Nervura blood and nerve remedy in order to attain health, strength and beauty. You can consult, free of charge, Dr. Greene, 148 State St., Chicago, Ill., the

AT THE PLAYHOUSES.

It is a delight to the student of huma nature to note the effect on the gallery audlences at the Century of Sousa's new march, which is played at the end of the second act of "El Capitan." It is a stirring composition and it causes the the dollar-and-halfers on the first floor to breathe hard and look exultant, but its greatest popularity is with the gods upstairs. At the end of the second bar they are beating time and the first pause is followed by cheers that would affright a flery dragon. So great is the applause that the responses to encores can hardly be heard. Mr. Hopper and his company are doing good work and drawing

"What Happened to Jones" is drawing well at the Olympic. Mr. Boniface, who has the role of Jones, has recovered from the hoarseness that handicapped him at the first performance and gets more fun ou of the lines than he did Sunday night.

Charles E. Blaney's successful production "The Electrician," will be the attraction at Havlin's week commencing Sunday matinee Jan. 16. The play is built around a new theme-electricity. One of the four big effects is an electric light plant in full operation, lighting a city in full view of the audience, a scene that requires the use of 500 incandescent lights. "The Gelsha" is coming to the Olympic next week. Bud Mantz, the popular and andsome treasurer of the house, will have

Col. Hopkins' Grand Opera house crowded every afternoon and night. "The District Attorney" is receiving excellent treatment at the hands of the stock company and the olio features are all strong.

May Howard and her dizzy accomplices are affording entertainment for the patrons of the Standard. "The Moulin Rouge" will play a return date next week. At the opening of the sale of seats for E H. Sothern's engagement at the Century Theater this morning the demand was so large for "The Adventure of Lady Ursula"

that it was decided to present this play during the entire week, except Saturday evening, when Belasco and De Mille's "Lord Chumley" will be presented. This is the last week of the Veriscope

# AND MAHER, Spalding and Other Veterans to Be at ST.

THEIRS WILL BE THE NEXT PRIZE FIGHT OF ANY IM-PORTANCE.

### TO MEET AT SAN FRANCISCO.

The Hibernian Is the Youngest in Years, but the Darky Has Away the Best of It in Weight.

The next big prize fight from present appearances will be that between the two Peters-Jackson and Maher. They will ome together for a \$10,000 purse seven

Peter Jackson, the greatest heavy weight boxer ever produced by the African race, has not engaged in a serious ring battle since May 30, 1892, when he knocked out the then formidable Frank Slavin in 10 flercely fought rounds. Since that date Jackson has played "Uncle Tom's Cabin" and Uncle Tom gin with great assiduity.

It is questionable which pastime has had the most trying effect on the constitution of the herculean negro.

After six years of fistic idleness, but quid industry, the West Indian has de-ded to engage in a twenty-round tussle ith that fiery Hibernian, Peter Maher.

Maher in his present form should give a perfect Peter Jackson a great battle, and it is quite plain what the result should be to the deteriorated West Indian. In a long battle Maher's superior condition should win. In a short, fierce mix up, the Irishman's terrific hitting should carry the day. Jackson will have the advantage of weight, height and reach, but this will be offset by Maher's form.

offset by Maher's form.

Jackson's wonderful endurance when at his best was shown at San Francisco in 1891, when on a lame foot he fought Jim Corbett sixty-one rounds to a draw. The bout was declared no contest by the referee, which enabled the club officials to hold back part of the purse. Jackson is without question one of the most intelligent men in the roped arena. With a good command of language, he is a close observer and reader, and can discuss intelligently a wide range of subjects. It is to be regretted that a man who performed so well in the ring, when his powers were at their zenith, should now, in the days of his decadence, feel called on to again take the hard knocks which fall to the lot of the professional boxer.

While condition will doubtless win the battle, a comparison of the boxers' dimensions will doubtless prove interesting:

Every seat, as well as standing room only, was pre-empted, and seats were also placed in the wings on the stage, all of which were greedily sexed upon. The entire orchestra seats were pre-empted by students of the University of Indianapolis, who raised the college yell on seeing McCoy, while the college colors were flaunted wildly and tossed over the footlights. Many of the members of Reilly & Woods troupe possessed themselves of the trophies and joined in the clamor. During the day Homer and his brother called upon their parents, who gave a cordial welcome to the homecoming boys.

OLD-TIME PLAYERS ON HAND.

the Rockford Baseball Carnival. ROCKFORD, Ill., Jan. 13.—This is baseball carnival week in Rockford. The directors of the local Western Association team, hav-ing hit upon a novel means of raising money for the support of next season's club, Central Hall will be open five nights, and the national game will hold sway, despite the fact that it is generally accepted as being out of season.

fact that it is generally accepted as being out of season.

This city is proud of the title of "the cradle of baseball." The old Forest Citys of Rockford numbered such stars as Adrian C. Anson, Al G. Spalding, Ross Barnes and Bob Addy. The directors of the club have decided to get the old-timers to give midwinter reminiscences at the carnival. Anson could not be present, owing to the marriage of his daughter this week, but A. G. Spalding, who formerly lived in this city, will attend the carnival Thursday night. On that evening H. H. Waldo, who was known as the father of the old Forest Citys, and who umpired the game Harry Wright day last year, will give some reminiscences, Novel programmes have been arranged for the other evenings of the carnival.

Baseball never pays for itself in Rockford. The people demand too fast a game for that. Last season the club, which was supported by liberal citizens, landed in third place. This year it is thought the carnival will net enough to buy some minor league Rusies and Dahlens and win the pennant.

RECORD OF THE LOCAL CRACK.

It Is a Good One, Sure Enough, and for a Youngster, He Has Made a Remarkable Showing.

There was a sound of hammers and saws n the big Coliseum this morning, and work on the new bicycle track was commer n real earnest.

"It will be ready in a day or two," said Jack Prince this morning, "and as soon as it is completed we will allow the boys who are going to take part in the fortho ing tournament to use it. It will be ready by Tuesday next at the latest."

All the talk around L. A. W. headquarters is about the Coburn-Eaton race, which will be the big event on the night of Saturday, Jan. 22, when the big tourna-ment takes place.

There are some who think Willie Coburn, the local crack, will give Eaton, the indoor champion, a regular surprise party, especially in view of the fact that he will have Jack Prince to train him.

Prince considers Coburn one of the most

cially in view of the late of the win here couldn't stand the price named on him, so quietly withdrew and took up the matter with M. F. Dwyer as to Ben Brush, all great son of Bramble. It is rumored he paid the Brooklyn turfman \$25,000 for the great racehorse and in a few days will doubtless announce just his destination—whether to race in England, here or to go to the stud.

Ben Brush has to his credit the following stakes in his 4-year-old year-1887:
Suburban handicap, Omnibus stakes, Brighton handicap, Citizen's takes, Gravesend special, first and second division.

Tobe's Last-Home Run.

Last Wednesday morning, if you had listened closely, you would have heard cheers and a clapping of hands and cymbals and then a gentle closing of gates.
The sound came from the angels out of the blue skifes and they cheered for poor Tobe, who, just ast he bright morning came, scored his last home run.

Long years ago lwhen there were more roses about St. Lowls in the summer than there are now, and more fields of blue grass young Tobe was a great ball player. He was a member of the Empires in their palmy days and his friends were legion.
Then he went to work with pencil and in his later years he wrote of the doings of the ball players of long ago. The series in St. Louis were his last efforts and they will go to form a part of the history of the National Game.

To-day from the door of the humble residence of Edmund H. Tobias, there flutters a plece of crepe that tells the story.

Toor Tobe has made his last home run.

## Harry Duke Now Resting.

Harry Duke's string of 12 straight victories down at New Orleans was the most brilliant performance ending the season of 1897. T. H. CHRIS VON DER AHE NO LONGER PRESIDENT OF THE ST. LOUIS BROWNS.

THAT IS THE WAY IT READS.

But If Anyone Asks You, Tell Them That the Old Man Still Has a Whole Lot to Say.

Chris Von der Ahe, this morning, woke up to find himself no longer president of the St. Louis Browns. He has held that place since 1880 and did

not resign it until yesterday.

Then the long contemplated change at Sportsman's Park took place. The news got out late yesterday afternoon

signed as president and treasurer club. What other officers there were followed suit.

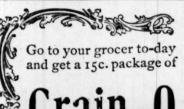

Then a new election was held at which B. S. Muckenfuss was elected president and J. W. Peckington secretary.

As soon as the new officers were elected they went to work, fixed up a chattel deed of trust, made Von der Ahe a preferred creditor to the tune of over \$100,000, and then filed the same in the office of the Recorder of Deeds. In other words, they transferred all of the assets of the concern to Von der Ahe for what they term "the benefit of the creditors."

Mr. Von der Ahe's claims against the concern are twenty notes of \$1000 each, thirty notes of \$1500 each, one note of \$13,36.72, one of \$12,000 and one of \$3550. A score or more of other notes and claims.

Even when asked about his health, Von der Ahe said: "See my attorney."

The whole matter, it would appear by this, is in the hands of Mr. Glover, and any one not liking the way the Sportsman's Club and Park business was settled yesterday will have to deal with him.

The the north part of the county, yesterday. The loid couple were remarried at the M. E. Church by Rev. Robert Stephens, presiding elder of the Danville district, in the presence of a company of nearly 200 relatives and friends. Allen Siy, Jr., a grandchild of the couple, preceded them into the church, bearing upon a satin cushion the ring with which their troth was plighted a half century ago. An elaborate repeat succeeded the beautiful ceremony. The affair was chiefly notable for its floral decorations, which surpassed in magnificence anything ever seen in the locality. Mr. Siy is a man of great wealth and gave carte blanche to the florists to put forth their best efforts.

COMPLETE DOWNFALL OF OSCAR JOHNS, ONCE A HIGH-FLYER OF TERRE HAUTE,

FATHER WAS WORTH MILLIONS.

The Young Man Had a College Educa tion, but To-Day He Is a Street Beggar and Outcast.

Special to the Post-Dispatch.
TERRE HAUTE, Ind., Jan. 13.—From the lap of luxury to a hopeless wreck from whisky; from the son of a once millionaire to being compelled to beg for something to eat. This is the situation of Oscar

so poor and miserable that there is scarcely any one who will even notice him as he begs for a dime first from this one and then from another to get either bread or whisky.

Johns was recently arrested for stealing paint from Ed Hampton's drug store, but he was released yesterday, Mr. Hampton refusing to prosecute.

Slow but sure advance of man's deadliest enemy, consumption.

If a man will but take the right care of himself and the right remedy he may protect himself against this relentless enemy. Dr. Pierce's Golden Medical Discovery is not only a sure preventive.

Johns was recently arrested for stealing paint from Ed Hampton's drug store, but he was released yesterday, Mr. Hampton refusing to prosecute.

Fifteen years ago "Oc" Johns' father, Thomay E. Johns, was one of the widst known and most influential man in the whole Wabash Valley. He was counted a millionaire and Johns' lumber yards at Terre Haute, Indianapolis and other cities, his great wheat farms in this county and his saw mills in the lumber regions made him known far outside this State. "T. E.," as everybody called him, sent Oscar to an Eastern college and during vacations the young man would bring home with him some of his aristocratic chums, and there used to be gay old times in the "Tenderloin" district of Terre Haute. The Johns mansion, at Sixth and Oak streets was admittedly the finest residence in the city, and it was the scene of some of the most brilliant social functions. Then came, after a succession of business reverses, the death of "T. B.," and after his death the starting discovery that his estate was insolvent. He was known to have carried heavy life insurance, but when the policies were exammed, they were all made parable to his estate, so that the widow and the children had nothing for themselves. Grain gambling was the generally accepted reason for Johns' collapse, as he was known to deal on the Chicago Board of Trade at times quite heavily. When the old man died it was practically of a broken heart. The widow afterward moved to Calcago and married there.

The son, who had been accustomed to every luxury and to plenty of money, took to dissipation, and his downfall was swift.

Mr and Mrs. Silverstein of New York, have celebrated their golden wedding, and now Mr. and Mrs. Goldenstein of Boston, are to celebrate their silver wedding. The Italians who live in the neighborhood of the Wellington Statue and Hyde Park Corner in London have named the place "Cavillmton," a corruption for "cavallo alto Wellington," high horse Wellington.

Crows are besting or worsting the farmers about Uniontown, Mich. They descend upon the cornfields in swarms, and go so far, it is avered, as to post pickets on the fences to give warning of the approach of gunners.

Men and women dig and adelve their lives away in order to pile up gold with never a thought of the most precious endowment a human being may have, good health. What does it profit a probasi if in doing so he

to being compelled to beg for something to eat. This is the situation of Oscar Johns, one of the best-known young men of Terre Haute.

Who does not know "Oo" Johns in Terre Haute? In his palmy days he spent his father's money like water and he was followed by a train of hangers-on. Now he is so poor and miserable that there is scarcely any one who will even notice.

KEOKUK, Io., Jan. 13.—The committee of the whole Council met behind closed doors and decided to buy a bronze equestrian statue of the late Gen. Samuel B. Curtis, a former Keokuk man; a plaster cast of the medallions of Gen. W. W. Belknap, another famous Keokukan who was secretary of war under President Grant, and of Gen. J. C. Parrott, who lives here; also a bas relief entitled "Triumphal Return," containing the portraits of Judge H. H. Trimble and other prominent men here. The originals are on the Soldiers' Monument at Dea Moines, and these pieces are to be purchased by the city at a cost of \$2000. The money is to come out of the city's saloon licenses, police court free, slot machine and poolroom licenses. No tax money can be used for this purpose. The pieces will be given conspicuous places in the city.

was taken to Canton, Lewis County, which
is outside this judicial district. The suits
for damages are brought by citizens of
Hannibal, who allege that their property
was damaged by an overdow of Bear Creek,
on July 4, 187, and that the overflow was
caused by obstructions belonging to said
railroad company. On that date there was
a regular cloud-burst and both Mills Creek
and Bear Creek overflowed their banks and
inundated all the low land en Lindell avenue, flooding houses, piling drifts on the
land and washing away gardens, etc.

THE MARKETS.

New York dispatches to-day state that we are on the brink of a war with Spain, and that the orders for the battleship Main and two torpedo boats to go to Hayann have been countermanded by the Government, as they may be needed to protect. New York harbor.

San Francisco wires that the general rains which swept over California have put an end to the danger from drougth and very much improve the outlook. The markets all much lower on the Pacific Coast in consequence.

Philadelphia wires thay two steamers were chartered for wheat at that port late yesterday.

Baitimore wires clearances of 185,000 bu wheat, 800,000 bu corn and 130,000 bu of oats.

The Daily Trade, Bulletin says the aggregate supplies of breadstaffs in store in Europe and after there for and in store in the United States and Canada on Jan. I were equal to 151,003,400 tu, as compared with 156,515,500 bu on Dec. I, and 184,618,300 bu,Jan. I, 1897.

Exporters are figuring now that the difference between the price of wheat in Chicago anad Liverpool is only be per bu, while at the top price the total hogs packed to date 6,150,000, as compared with 4,025,000 hogs for the corresponding period a year ago.

Chop news to-day was a very favorable character. Opening cables were:

Liverpool—Spot wheat dull, ½d lower; futures Liverpool—Spot wheat and 1½ lower. Crop news to-day was a very favorable character.
Opening cables were:
Liverpool—Spot wheat dull, ½d lower; futures dull, ½d½d lower, corn—Spot steady, ¼d lower; futures quiet, ½d lower.
London—Wheat cargoes arrived off coast, quiet and uncertain; on passage, very weak. Corn cargoes off coast, quiet and hardly any demand; on passage, nominally unchanged.
English country markets easy.

NEW YORK, Jan. 13.—The stock market was unsettled at the opening by the news from Havana of unfriendly demonstrations against the United States. Some striking declines were shown, and the exceptions on the side of gains were few. The railroads generally showed losses extending up to %, the latter in Burlington, and Northern Pacific proferred was off %. Sugar and National Lead lest nearly a point. Chesapeake & Ohio and New York Central were the only railroads to show gains. Manhattan opened with simultaneous sales of 1500 shares at 117 and 117%, against 116% last night, but quickly receded to last night's level. Metropoiltan Street Railway also showed a small gain. The bulls railled to the support of the market after the opening and heavy buying orders in Manhattan and Northern Pacific steadied values, which moved up to about yesterday's closing level. Manhattan was quite buoyant and touched 118%. The bears then made a renewed attack ou Sugar and the coalers, which developed into a general selling movement. Omaha and Sugar lost 2%, Luckawanna 11%, New Jersey Central 15%, General Electric 14 and many other shares about a point in the former and coalers, which developed into a general selling movement. OFF ON THE JUNKET. TUBES FOR THE MAILS

CITY OFFICIALS SHAKE THE MUD A PHILADELPHIA COMPANY OF ST. LOUIS FROM THEIR FEET.

Treasurer of the Party Has Two Thousand Dollars of the City's Money to Spend for the Cause.

The official junketing frolic disguised un-ier the pseudonym of "The Good Streets Commission," will leave Thursday night with \$2000 of the city's money for a three weeks' trip through the North and East. be the star of the junket company, but he refused to go, because he could not con-scientiously participate in spending public money so frivolously when the streets and other departments of the city were suffering

for financial relief.

The sities to be visited are Detroit, Buffalo, Boston, Philadelphia, Washington and New York. President McMath will be chairman of the committee, and Councilman Uthoff handler of the pursestrings.

When the junket was proposed both Mr. McMath and Mr. Milner denounced it as a useless expense of money, and at a time when the streets of the clities to be visited would be so thickly covered with snow and slush that no practical observations could be made. More than this, the Board members insisted they had been over all the ground often and recently, and it was not fresh information they wanted as to construction and care of streets, but more money, and they would guarantee St. Louis as good streets as are the found anywhere. However, after several conferences with the other fellows who were bent on making the trip as a rest from arduous labors, at the city's expense, the Board members consented to pilot the eager statesmen around the circuit.

No one has ever been able to find out why it is that the Street Commissioner and his assistant should both go on the junket, but it is understood that the junket idea would have never been conceived had not Julius Wurzburger been in it, and it would not look well to take Wurzburger along—and leave his chief out.

The Street Department will be without a head for the next three weeks. So also will be the House of Delegates, as Speaker protem Wittenberg is away from the city for his health.

the whole board.

The most important measure pending before the board is the new city lighting ordinance, and President McMath is a member of the Lighting Committee, with Messra, Holman and Colby. Great pressure has been brought to bear to hurry this ordinance, and several drafts of an ordinance of that purport have been submitted, but none of them were deemed valid.

The lighting ordinance will go over until Mr. McMath's return.

WISHES TO INTRODUCE THE SYSTEM IN ST. LOUIS.

WILL INSPECT OTHER CITIES. FIRST TO UNION STATION.

Expected That in Time the Chutes W! Be Extended to Substations and the East Side.

William H. Bliss of New York, attorney

for the Philadelphia company which owns the patents on the pneumatic tube system, has been in the city several days as the guest of Arthur Lee. He is pleasantly remembered here, having served as United States Attorney for the Eastern District of Missouri from 1881 to 1855, and still has large property interests in St. Louis.

Mr. Bliss said to a Post-Dispatch reporter: "Yes, I have had a conference with. Postmaster Carlisle. Our company's representatives have also been in correspondence with the authorities at Washington, and, between the two, with the approval of the citizens of St. Louis, he new system of transmitting and receiving mails can be established in a short time. B. C. Batcheller, our chief engineer and the inventor of the system, will reach this city next week and make some preliminary surveys, upon which to base estimates of cost and proposals to the Government.

"Pneumatic tubes have been used in Philadelphia since 1888, when they were laid between the main postoffice and the sub-postern of the system of postal delivery tubes in New York City between the general postoffice and certain sub-stations. The Philadelphia company drew up pians for a set of lines running from the general postoffice to the Produce Exchange, to the Forty-second street depot, to One Hundred and Twenty-Tith street and across the Brooklyn bridge. This line to the Produce Exchange and return was built and the opening took place in October last. The Forty-second street depot, to One Hundred and Twenty-Tith street and across the Brooklyn bridge. This line to the Produce Exchange and return was built and the opening took place in October last. The Forty-second street depot, to one Hundred and Twenty-Tith street and across the Brooklyn bridge. The lines to the extreme of the city in all available directions.

"Meanwhile the city of Boston has produced Exchange, to the Forduce Exchange and others will be begun at once, it is the intention to run the lines to the extreme of the city in all available directions.

"Meanwhile the city

service entirely.

Mr. Bliss says it tis customary to organize a local company for the conduct of the pneumatic tube system in the city wherein the Government contracts for it, so that it may be managed under the laws of the State.

The reorganization of such a company for St. Louis is part of his present business here.

Professors and physicians in Baltimore Philadelphia, at Yale, Harvard and othe points hold conservative views and are ewaiting further investigations. Prof. Henry L. Swain, M. D., of Yale Medical School, himself a scientist, is great-

Clearing Sale Specials in Men's Clothing.

From January 9 to 15, inclusive, is Self Denial week with the Salvation Army, and that means a personal sacrifice on the part of every officer and member.

Saturday afternoon twenty or twenty-five of the lassies will appear on as many down-town street corners to accept contributions. The lassies will appear at twelve o'clock and remain on the streets four hours. The money thus collected will be used for the cause of humanity, one of the chief purposes being the advancement of the Home of Rest for sick and wounded.

Self Denial Week is an annual occasion with the Salvation Army and is observed in all parts of the world. There is no place where the week will be characterized by more sincere sacrifice than in St. Louis.

Maj. and Mrs. Miles have returned from a tour of the State. They visited many of the posts under their jurisdiction. From January 9 to 15, inclusive, is Self Without a doubt the Best Clothing Values to be found in St. Louis To-day.

Charles Mitchell, Amos Davis and Will Graham forced a freight car and stole II bundles of hides worth \$500. They placed them under a tarpaulin near the river. Officers James Murphy, in citizen's clothes, arrested the negroes when they were puting the hides in gunny sacks. The hides ere consigned to J. W. Cronder, 106 North in street.
